RE: Flooding and Drinking Water Quality

The Winnebago County Health Department would like to remind you that we have resources available to address flooding and water quality problems associated with flooding. We can provide support and answer questions regarding homes affected by floods and provide information regarding home clean-up procedures and guidelines. Additionally, we can provide fee exempt water testing, answer questions regarding flooded wells, and discuss treatment methods for contaminated wells to those affected by flooding.

Information can also be obtained on the county's Emergency Management webpage at http://www.co.winnebago.wi.us/EmergencyMgt/Flood/Flooding.pdf. A link to our flood information is also available on the front page of Winnebago County's website http://www.co.winnebago.wi.us/.

Additional resources include the Wisconsin Department of Health and Family Services and the Wisconsin Department of Natural Resources. DHFS, DNR
